PROMOTIONS

DRY JOINT REPLACEMENT

GLM Products, Inc. now offers the most cost effective alternative for replacing your dry joint exhaust system!

GLM No. 51148 has two extra water ports on each side and a larger bottom port compared to the OEM. This allows for maximum water flow through the riser significantly reducing the chance of blockage from any debris in the water system.

Extra Water Ports

No. 51148
V6 & V8 S.B.

Superior Gasket Technology Eliminates Surface Leaks

Removable plug for use with closed cooling systems.

Dry Joint Replacement Manifold/Elbow Sets

(1 Manifold, 1 Elbow, All Gaskets & Hardware.)

V6
No. 58650

V8 S.B.
No. 58660

2012 TRADESHOWS

October - IBEX - Kentucky Expo Center, Louisville, Kentucky USA (Booth info coming...)

November - METS - Amsterdam Convention Center, Amsterdam, Netherlands (Booth info coming...)

TECH TIPS

1. NEVER START AN ENGINE DRY! Always use a flushing attachment when starting out of water.
2. ALWAYS RUN BLOWER before starting engine and when idling below 1500 RPM.
