

Superior Marine Manifolds

MerCruiser V6
MerCruiser V8
OMC GM V6
OMC Ford V8

100% Complete
Conversion Kits

Gaskets & Hardware Included

MerCruiser GM V6
MerCruiser GM V8 S.B.
MerCruiser GM V8 B.B.
OMC / Volvo Ford V8 (Carb.)
OMC / Volvo Ford V8 (EFI)
Volvo GM V6 to 1993
OMC / Volvo GM V6
OMC / Volvo GM V8 S.B.
Volvo GM V8 to 1991
OMC / Volvo GM V8 S.B.

100% Complete
Manifold Sets

Gaskets & Hardware Included

Two Identities, One Great Entity

4-Cylinder
Manifolds

MerCruiser 120
MerCruiser 140
MerCruiser 3.0 L
MerCruiser 3.0 LX
OMC 3.0 / 3.0 H.O.
Volvo 3.0 GS

Gaskets Included

V6 thru V8 B.B.
Manifolds

MerCruiser
OMC
Volvo Penta
Marine Power
Indmar
Barr

Gaskets Included

MerCruiser 3 Inch
MerCruiser 4 Inch
OMC 3 Inch
Volvo 3 Inch V6
Volvo 3 Inch V8 S.B.
OMC / Volvo (Carb.)
OMC / Volvo (EFI)
OMC 3.0 / 3.0 H.O.
Volvo 3.0 GS

Exhaust
Standard Elbows

Gaskets Included

Volvo Penta V6 (2007 & Up)
Volvo Penta S.B. (2007 & Up)
OMC / Volvo Penta V6
OMC / Volvo Penta V8 S.B.
OMC / Volvo Penta V8 B.B.
OMC / Volvo Penta V8 Ford

Exhaust
Hi-Rise Elbows

Gaskets Included

GLM Products, Inc. has been committed for over 30 years keeping boaters on the water. It's GLM's innovation that sets us apart from the competition. We accomplish this by offering the world cost-effective alternatives to OEM parts. While our competitors manufacture standard OEM replacements, GLM takes aftermarket marine parts to the next level. GLM starts by using superior materials and the latest in technological advancements. Then our highly skilled in-house engineering team re-designs the parts for optimal performance. This results in an aftermarket marine part that is 100% compatible with the OEM, while increasing the reliability and performance. Finally, we offer over 4,000 aftermarket marine parts that include original parts, designed, engineered and manufactured by GLM Products, Inc. With a number of new products introduced every year, GLM has improved its process to adapt to the ever-changing needs of the marine industry.

GLM's specialty is our superior "Lost Foam" casted marine exhaust manifolds. With exhaust manifolds, an accurate cast is crucial for the proper function of the part. Through the use of precisely molded foam pieces, a highly accurate pattern for the desired casting can be made. Complex internal passages are in the mold itself, not formed by cores. The accuracy of the casts prevents thin spots in the internal walls that can corrode prematurely, possibly causing severe engine damage. This also increases the life of the manifold, thus reducing costly repairs for the boat owner. Another advantage to "Lost Foam" is that the cast is more rigid, having less chance of failure. "Lost Foam" also offers excellent dimensional tolerances with no structural limitations for casting. It is more durable and reliable than other types of casting technology. The uniformity of GLM's internal walls enables us to increase the water cooling area inside the manifold by 30 to 40 percent, decreasing exhaust gas temperature, lowering overall engine compartment temperature. GLM Products, Inc. was first in the aftermarket marine parts industry to offer "Lost Foam" cast manifolds in 2002. We continue today to set the standard for others to follow.

Dry Joint Alternative
Manifold-Elbow Set

MerCruiser V6
MerCruiser V8

Gaskets & Hardware Included

Replaces your whole dry joint exhaust system!

and much more...
