

ALL GEARS

Instructions for 10 Hour Break-in Period

1. Avoid full throttle starts.
2. Make sure engine idle is set to factory specs.
3. **DO NOT** operate at constant speeds for extended periods.
4. **DO NOT** exceed 75% of full throttle during the first 5 hours of operation. During the next 5 hours, full throttle operation is permissible for brief periods.
5. Shift into forward gear a minimum of 10 times during break-in, with moderate engine speed after each shift.
